Teachers
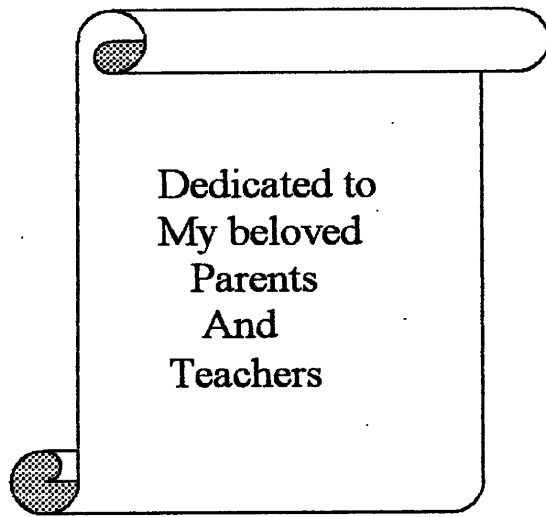

# Acknowledgement

It is a great pleasure to thank. who gave me the uttermost helps in completing this web publishing project. I sincerely thank for our lecturers Mr. K.S. Senthilkumar and Mr. R.M.N.B. Ratnayaka who paid a lot of attention to make our project a successful as well as a meaningful one throughout their supervision. I'd also like to say a Special thanks to prof. Raj Somadewa, the archaeologist who gave every data about the Cultural Triangle of Sri Lanka.

I grant my sincere thanks to the director of the center for computer studies Prof. I.K. Perera, who gave us the opportunity to use the computer center in addition time.

I extend my deep gratitude to my friends who gave their views to successful my effort. Finally my sincere thanks go to the nonacademic staff of the computer center.

# Introduction

To create this web pages mainly I use the front page software. The common language for creating content on the web is the Hypertext Markup Language, or HTML. We can use any text editor, such as Notepad to create a web page in HTML. The problem with creating web pages in a text editor is that the author must understand the necessary tags. But when we use the front page we don't need to remember the HTML tags for creating text.

Front page software is a word processor for creating HTML web pages. Like Microsoft word and other windows word processors, the document we create in front page express appears exactly as it will appear when viewed in a browser.

When I creating this web pages, I also used flash software which is most useful to design the web pages. Most of the graphic files have include to this web pages by scanning. Clip art also used to design this web pages. I include various type of web pages by using front page express as same as page transitions.

Using flash software I designed the "NEXT" and "BACK" buttons to go to the next page or previous page respectively. There are hyper link to any page. There for any one can go to any page using that buttons. This project repot is published the information of the Cultural Triangle of Sri Lanka.
