Introduction

Computer is a practical subject. As well as it has spread very quickly in worldwide. So we must have practical knowledge with usage of computer.

Using website, we can get more information. This web publishing project help^{us} to improve knowledge of website.

I prepared the website into seven main pages which are included twelve sub pages. All the pages are prepared using Themes with shade borders. I have applied background images with suitable background color. Every page has hyper links. I applied hover buttons and image button to hyper links. In addition I have used an image to attract website viewers as well as I have used navigation bar, web buttons, banner bars and Marquees.

Next I have used Flash software, Photo editor software and Fire works software.
