List of tables	vii
List of other figures	viii
Chapter 1 Introduction to the study	1
1.2. Description of the Area	2
1.3. Objectives	2
1.4. Hypothesis	2
1.5. Conceptual framework	3
1.6. Methodology	3
1.7. Limitation	4
1.8. Chapter outline	5
Chapter 2 Wind circulation patterns	6
2.1. Global Circulation Pattern.	6
2.1.1. Atmospheric Circulation models	6
2.1.2. Wind patterns	7
2.2. Wind pattern in Sri Lanka	8
2.2.1. ITCZ & cyclones	9
2.2.2. Monsoon	10
2.2.3. Local wind patterns	11
The land sea breeze	
The mountains & valley breeze	
Fohn wind	
Chapter 3	
3. Utilization of wind past & present	14
3.1. Iron production in Kinchigune area	14
3.2. Electricity generation using wind power in Sri Lanka	16
3.2.1. Feasibility studies of wind electricity generation in the southern coastal belt of Sri Lanka	17

Chapter 4	
4. Wind current in the Mahawalathenna plateau	20
4.1. Wind fluctuation pattern according to the time	20
4.1.1. Wind speed in May	20
4.1.2. Wind speed in June	23
4.1.3. Wind speed in July	26
4.1.4. Wind speed in August	29
4.2. Comparing wind pattern of Mahawalatenna plateau with Ratnapura & Badarawella	32
4.2.1. Comparing wind speed in month of May	32
4.2.2. Comparing wind speed in month of June	34
4.2.3. Comparing wind speed in month of July	36
4.2.4. Comparing wind speed in month of August	37
4.3. Potentiality of wind for power generation	39
Chapter 5	
5. Conclusions & Recommendations	42
5.1. Conclusions	42
5.2. Recommendations	44
Appendix	45
List Of References.	53
