PREFACE

My attempt of this independent report is to fulfill Project Report at the end of my Degree, B.A. Social Sciences (specialization in Economics) in 1999 at the Sabaragamuwa University of Sri Lanka.

I am happy in doing this study even in a limited scale. I have tried to manifest the problem and prospects of the impact of the Sabaragamuwa University of Sri Lanka on Galagama and Pambahinna villages. I thought of selecting this topic, because there is none who had done it before and the area under study is the place where I live.

I have put forward my facts using simple language and I hope this research will benefit those who are interested in the above topic. I hope my project report would make the reader realize the importance of the subject matter and would be benefitted by it.

Acknowledgement

There are few names that always recur in my mind and deserve my gratitude.

First and foremost, I express my sincere thanks to Mrs. C. L. Amarasekera, the Dean, Mr. H. M. S. Priyanath, Head of the Department of Social Sciences, and all the lecturers in Economics for helping me to arrange this project report, by suggestions, lectures, advice on research methods and indicating the subject matter.

My special thanks go to Dr. E. U. S. Senanayake, for his supervision, guidance, and corrections and kind cooperation throughout the period to make this effort, a success.

I would like to express my appreciation to all the people who provided the necessary information, important materials and their assistance in collecting the details for this investigation.

I also thank and remember my thaththa, amma, brothers and my wife, Dilan for sacrifice and generous support financially and otherwise from the inception, right through the passage of time till today.
