

A Novel Sentiment Analysis-Based Hybrid Machine Learning Approach for Forecasting Financial Indices Under Economic Instability <i>Jayakody J.A.I.N. and Rathnayaka R.M.K.T.</i>	41
Comparative analysis of deep learning architectures for Sri Lankan sign language recognition using MediaPipe landmarks <i>Wijesinghe W.H.M.M.J. and Wijerathna R.M.K.K.</i>	42
Tab-Net Powered Assessment for Early Recognition of Neurodevelopmental Disorders in Children Below Three Years using Symptom Analytics <i>Chamoda B.P., Vasanthapriyan S. and Dampalessa D.R.C.G.K</i>	43
Detecting scam job advertisement using machine learning techniques <i>Natha M.S.S., Amath A.A.S. and Erandi J.D.T.</i>	44
Predictive modeling for injury risk and performance analysis in collegiate and female basketball players <i>Dilakshigan A., Erandi J.D.T. and Chandana A.W.S.</i>	45
Data-driven prediction of university admission cutoff marks in Sri Lanka using machine learning <i>Theeksha J.R.N. and Kudagamage U.P.</i>	46
AI-powered predictive modeling and comparative machine learning analysis for improving hospital operational efficiency <i>Rathnaweera R.C.L.U., Somaweera W.T.S. and Sandaruwan R.M.T.</i>	47
A machine learning-based evaluation of English-to-Sinhala translation: comparing Google Translate, large language models, and human translators <i>Jayathilaka K.M.D.P.S.D., Rubasinghe T.D. and Kumara B.T.G.S.</i>	48

OPEN TRACK

A Multi-Dimensional Analysis of Infrastructure Considerations in Industrial Facility Placement Using Machine Learning <i>Dilanka M.R. and Wasalthilaka W.V.S.K.</i>	49
Hybrid Approach for Automated University Academic Timetable using Graph Coloring Techniques and Linear Programming Mathematical Resource Optimization Model <i>Gnanarathne S.D.D.S. and Kumara P.G.P.</i>	50
An innovative heuristic algorithm for multi-objective transportation problems using improved ant colony algorithm <i>Premathilaka M.H.H.D.N. and Ekanayake E.M.U.S.B.</i>	51
